

## ESRC/BBSRC Epigenetics Showcase

Thursday 2<sup>nd</sup> May 2019

Venue: [Church House, Westminster, London](#),

### Draft Agenda

Registration <i>Tea/Coffee available</i>		09:30
Welcome and Introduction	TBC	10:00
Epigenetic stability in a stressful environment and its effects on reproductive function	Professor Gillian Bentley, <i>Durham University</i>	10:15
Epigenetic responses to social and environmental cues in early life and over the life course: impact on healthy aging in UK population-cohorts	Dr Jordana Bell, <i>King's College London</i>	10:30
EpiFASSTT: Epigenetic effects on children's psychosocial development in a randomised trial of Folic Acid Supplementation in Second and Third Trimester	Professor Colum Walsh, <i>University of Ulster</i>	10:45
INTERpreting epigenetic signatures in STudies of Early Life Adversity (InterStELA)	Dr Laura Howe, <i>University of Bristol</i>	11:00
<b>Coffee Break</b>		<b>11:15</b>
Epigenetics: Environment, Embodiment and Equality (E4)	Professor Caroline Relton, <i>University of Bristol</i>	11:45
Epigenetic trajectories of biological response to adolescent psychosocial stress: A novel longitudinal study of discordant monozygotic twins	Dr Chloe Chung Yi Wong, <i>King's College London</i>	12:00
Imprinting methylation; early life influences and later cognition and mood	Professor Paul Haggarty, <i>University of Aberdeen</i>	12:15
EpiStressNet: A biosocial systems approach to understanding the epigenetic embedding of social stress responses	Dr Vincent Cunliffe, <i>University of Sheffield</i>	12:30
Discussion	TBC	12:45
<b>Lunch/Marketplace</b>		<b>13:15</b>
Keynote	Professor Connie Mulligan, <i>University of Florida</i>	14:45
Open Forum Discussion	All	15:45
Wrap up	TBC	16:45
Close		17:00
