

Exploring Innovation

Events to enable innovation and impact from bioscience research

Up to **£2000 available to support an event** focussed on knowledge exchange and commercialisation (KEC) to encourage the widest benefit to society and the economy.

monkeybusinessimages: Thinkstock

The event might take a number of formats, including conference, seminar or workshop.

Involvement of researchers, knowledge exchange professionals and industry is encouraged.

Content might include:

- Intellectual property asset management, policies and strategies, including commercial agreements;
- Establishing collaborative relationships with industry;
- Business and social enterprise development from BBSRC research;
- BBSRC policy, support and funding mechanisms for KEC;
- Networking and sharing of best practice;
- Case studies of successful engagement with business and other user organisations.
