2020 BBSRC INTERNATIONAL PARTNERING AWARDS CALL GUIDANCE NOTES

Call Opens: 9th September 2020
Call Closes: 12th November 2020

BBSRC is pleased to invite applications to its annual call for the International Partnering Awards, aimed at fostering links between BBSRC-funded research in the UK and across the globe. The deadline for applications through JeS is **16:00 Thursday 12th November 2020**. Successful awards will be announced in early 2021 and should expect to start after 1st of April 2021.

Applications are invited from current BBSRC research grant holders, who are in receipt of BBSRC research funding. Full eligibility criteria is outlined in the table below.

NOTE: This is a general guidance document. Please check the annexes for funding amount, important country-specific information and additional items included on the application checklist.

BACKGROUND

BBSRC’s International Relations Unit (IRU) seeks to enhance BBSRC’s influence and involvement at the forefront of international science. This may be through accessing international funding opportunities in the interests of BBSRC’s scientific community, or by capitalising on international links, both at policy and scientific levels. IRU achieves this through International Partnering Awards and also a number of other mechanisms.

Partnerships with overseas scientists are producing benefits to the UK and the BBSRC community. It is therefore important that BBSRC continues to try to ensure that strong linkages are developed and sustained in the biosciences.

In 2000, BBSRC launched its first Partnering Awards call with Japan. Since then, BBSRC has expanded the scheme to include Partnering Awards for Australia, Brazil, Canada, China, Europe, India, New Zealand, Taiwan, the United States, and Global Partnerships. Since 2010, 251 International Partnering Awards have been funded, investing over £8M.

PURPOSE

The overarching aim of the International Partnering Award scheme is to provide resources to leading BBSRC supported research groups, which allow them to forge long-term relationships with international scientists in areas of research that are of direct relevance to BBSRC’s current scientific strategy. The Partnering Awards should provide benefit to BBSRC-funded research by establishing long-term partnerships that will lead to the development of new collaborative research programmes.

The purpose of the Partnering Awards is to provide pump-priming funds for building new links with overseas scientists which will add value to existing BBSRC funded research grants. Specific objectives that underpin the Partnering Awards scheme are:
• To establish partnerships between UK and overseas research laboratories;
• To promote the exchange of scientists, particularly early career scientists;
• To promote access to facilities;
• To tackle BBSRC’s strategic challenges as outlined in the BBSRC Delivery Plan:
  Bioscience for sustainable agriculture and food; Bioscience for renewable resources and
  clean grown; Bioscience for an integrated understanding of health and Advancing the
  frontiers of bioscience discovery.

SCOPE

Awards can be used to fund the following collaborative activities in emerging areas of science relevant
to BBSRC’s strategic priorities:

• Travel for one or more investigators in either direction;
• Visits/access to facilities;
• Scoping studies;
• Workshops and networking;
• Researcher exchanges;
• Other collaborative activities.

Collaborative activities are not limited to the PI and we encourage the involvement of early career
researchers. Partnering Award funds can also be used to support student exchanges, however, applications will not be accepted where this is the primary aim of the project.

It is acceptable for the proposed Partnering Award to outlast the associated research grant however
the associated BBSRC grant must have started before the application deadline and must have
at least 6 months remaining from the start of the award.

As Partnering Awards are based on currently-funded BBSRC research, they are not a vehicle for
supporting single research projects and Partnering Awards cannot be used to fund:

• Salary costs
• Consumables
• Items of equipment
• Other research costs
• Conference attendance*

*For convenience and cost efficiency BBSRC does allow award holders to arrange collaborative
meetings alongside conferences at which their partners are already present. However, the award funds
cannot be used to pay for the additional conference accommodation and costs such as registration.

Please note that the funding should be seen as a pump-priming award and that research groups will
be expected to access other sources of funding. This could include a monetary contribution from the
applicant’s institution or department or an in-kind contribution such as venue hire or accommodation
costs.
HIGHLIGHT NOTICES:

International Partnering Award applications are particularly welcomed in the following highlight areas.

Global Highlight: International partnerships fostering a One Health approach to diseases of zoonotic origin

Zoonotic diseases are capable of passing from animals to humans. The US Centre for disease control estimates that six out of every 10 infectious diseases in people are zoonotic and 3 out of every 4 new or emerging infectious diseases in people come from animals\(^1\). As well as threatening human and animal health, zoonoses affect livestock production, causing economic and social harm globally.

In response to the threat, this highlight will support international partnerships with any country that develop research projects and capability taking a One Health\(^2\) approach for improving our resilience to zoonotic diseases, which have the potential to cause significant social or economic impact. Applicants should explain the potential social or economic impact of their research in their case for support.

Applicants should also be aware of another related BBSRC funding opportunity.

- **Transformative Research Technologies for the Detection and Diagnosis of Plant and Animal Diseases** (Tools and Resources Development Fund) (Call open, closing 8 October 2020); for applicants intending on developing technologies that will lead to a step change in the ability of researchers to investigate UK plant and animal health problems caused by endemic or emerging pathogens or pests.

Global Highlight: International Year of Plant Health – Partnerships which foster collaboration to protect and enhance plant health.

The United Nations General Assembly has declared 2020 as the International Year of Plant Health (IYPH). The UN describes IYPH as “a once in a lifetime opportunity to raise global awareness on how protecting plant health can help end hunger, reduce poverty, protect the environment, and boost economic development.”

Pests, diseases and weeds are major contributors to inefficiencies in agricultural production and pose serious and continuing threats to global food and nutrition security. Current control regimes face widespread resistance, environmental change is impacting on the spread of threats and some emerging and under researched pests and diseases lack effective control options. In response to this threat, this highlight supports international partnerships that develop research and capability to protect and enhance plant health.

This highlight is a global highlight and is open to partnerships with any country. BBSRC particularly encourages applications under this highlight with the following countries: **Canada, China and Japan**.

Applicants should also be aware of another related BBSRC funding opportunity.

- **Transformative Research Technologies for the Detection and Diagnosis of Plant and Animal Diseases** (Tools and Resources Development Fund) (Call open, closing 8 October 2020); for applicants intending on developing technologies that will lead to a step change in the ability of researchers to investigate UK plant and animal health problems caused by endemic or emerging pathogens or pests.

Japan Partnering Award Highlight: Partnerships which foster collaboration between the UK and Japan in the field of Synthetic biology

BBSRC is keen to promote collaboration between the UK and Japan in the field of Synthetic biology. Applications in all aspects of the field are invited, however applications are particularly encouraged in the following areas:

- Transformation, control and biosynthesis of plant systems and the discovery of plant derived molecules
- Novel tools, techniques and technology in synthetic biology
- Large-scale genome engineering.

ELIGIBILITY

Applications must be made by a Principal Investigator (PI) who is currently in receipt of BBSRC research funding. **In addition, the associated BBSRC grant must have started before the application deadline and must have at least 6 months remaining from the start of the award.**

The table below provides further information about eligibility criteria:

<table>
<thead>
<tr>
<th>Eligible:</th>
</tr>
</thead>
<tbody>
<tr>
<td>PI on an active BBSRC responsive mode research grant</td>
</tr>
<tr>
<td>PI on an active BBSRC themed research grant</td>
</tr>
<tr>
<td>Recipient of a fellowship award from BBSRC.</td>
</tr>
<tr>
<td>PI or Co-I on a current BBSRC Strategic Lola or Initiative grant with funding of over £1M</td>
</tr>
<tr>
<td>PI or Co-I on a current BBSRC Institute strategic programme grant at a National Institute of Bioscience:</td>
</tr>
<tr>
<td>Babraham Institute;</td>
</tr>
<tr>
<td>Institute of Biological Environmental and Rural Sciences;</td>
</tr>
<tr>
<td>John Innes Centre;</td>
</tr>
<tr>
<td>Roslin Institute;</td>
</tr>
<tr>
<td>Rothamsted Research;</td>
</tr>
<tr>
<td>The Earlham Institute;</td>
</tr>
<tr>
<td>The Pirbright Institute;</td>
</tr>
<tr>
<td>Quadrum Institute.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Not Eligible:</th>
</tr>
</thead>
<tbody>
<tr>
<td>A BBSRC studentship award, including:</td>
</tr>
<tr>
<td>CASE Studentships;</td>
</tr>
<tr>
<td>Doctoral Training Partnerships;</td>
</tr>
<tr>
<td>Industrial CASE Partnerships.</td>
</tr>
<tr>
<td>BBSRC grants which are not research specific, including:</td>
</tr>
<tr>
<td>FLIP Awards;</td>
</tr>
<tr>
<td>Follow on funding.</td>
</tr>
<tr>
<td>BBSRC funding within an academic department.</td>
</tr>
</tbody>
</table>

Full details of eligibility criteria for BBSRC funding can be found in the [Guide to BBSRC Research grants](#).

Applicants should contact BBSRC for advice if they have any eligibility concerns: Sania.Afzal@bbsrc.ukri.org.
We encourage joint applications by consortia of UK partners, which could include industrial and non-BBSRC funded partners; however a BBSRC funded applicant must lead the consortia and submit the proposal using JeS.

APPLICATION AND ASSESSMENT CRITERIA

Timetable

| Call Opens: | 9th September 2020 |
| Closing date for proposals: | 12th November 2020 |
| Assessment of proposals: | January - February 2021 |
| Grant awarded and project start: | Awarded early 2021. Start after 1st of April 2021 |

For all UK applicants, applications must be made through the Research Councils Joint Electronic Submission System (JeS). In addition to the JeS proforma, the application should also include the following attachment.

Case for Support

The case for support should be a maximum of 3 sides of A4 written in single spaced Arial, Helvetica or Verdana typeface font size 11 and margins must not be less than 2cm. The Case for Support must contain the following sections:

- The main scientific objectives.
- Summary of previous contact or links with proposed partners.
- Details of the work to be carried out.
- Statement of added value: Indicate the benefit of the proposed collaboration to UK science and in particular, the relevance to your current BBSRC funding.

Applications must demonstrate how this award will add value to BBSRC science (and in particular their associated BBSRC-funded research grant) and facilitate longer-term collaborations between the UK and the partnering country.

Work plan

A Gantt chart or diagrammatic action plan which outlines the activities and timelines for the work to be carried out must be included in the application (Maximum 1 side of A4).

Cover Letter

A short proposal letter must be included in the application.

Additional Documents

CVs and publication lists are not required; however applicants may wish to include any particularly pertinent recent publications. A letter of support (maximum 1 side of A4) from, for example, the proposed collaborators may also be included but is not mandatory.

For a full list of information required for collaborative grants with Industry and other users, please refer to the BBSRC grants guide (section 2.9-2.18).

Costs

Applications should be made at current costs in accordance with subsistence and travel regulations at the applicant’s Institution. For each main activity, indicative costs should be shown. BBSRC may index approve costs so awards made will include an allowance for inflation. Any award made will be cash limited, and whilst funds should be used for the activities requested, the use of funds to allow activities that were not originally envisaged will be allowed as long as they are in pursuance of the overall objectives of the Partnering Award and within the guidelines.
No indirectly incurred costs can be applied for under the Partnering Awards scheme; consequently Full Economic Costing (FEC) is not applied to these awards. Applicants should therefore apply for 100% of the cost of the activities which they wish to undertake.

Applicants must follow travel advice set out by their institutions and the UK’s Foreign, Commonwealth and Development Office before departure and should check travel guidance for countries of interest when preparing an application. BBSRC will not cover the cost of any time spent in quarantine as a result of travelling on an International Partnering Award grant. To manage risks associated with travelling, applicants should make optimal use of remote working solutions.

Submission of UK Applications
Detailed guidance on how to complete the JeS application process can be found in Annex 1. The deadline for submission of applications through the JeS system is 16:00 Thursday 12th November 2020.

Assessment Criteria
UK applications are assessed internally by BBSRC. Internal assessment of these proposals allows Partnering Award applications to be processed swiftly and in proportion to the size of the awards. An internal review process can be applied as the applications are based on awarded BBSRC grants which have undergone robust peer review. All proposals will be assessed against the following criteria:

1. Benefits to BBSRC research
   - The relevance of the award and benefit that this will bring to BBSRC-funded project(s).
   - The benefits brought back to the UK; e.g. through access to new facilities or unique partnerships that would have been otherwise unavailable.
   - The uniqueness of the opportunity to work with international partners in ways that would otherwise be unavailable.
   - The level of contribution (either financial or in-kind) from the UK institution or the overseas partner in addition to amount sought from BBSRC.

2. Partnership working
   - Opportunities for the exchange of scientists, with a balance of activities that are appropriate to the topic area.
   - An explanation of why this particular collaboration has been chosen and how it adds value to BBSRC research.
   - Opportunities for early career researchers that will benefit their future career.
   - A detailed breakdown of the project workflow (i.e. a gantt chart).

Applicants should refer to BBSRC’s Delivery Plan for further information on BBSRC’s strategic priorities.

GRANT MAINTENANCE

All grant maintenance requests (e.g. grant extension request, extension to start date, transfer of organisation) should be made via the Grant Maintenance facility in JeS. All requests for extensions must be made once the required duration is known and before the grant ends.

Further information can be found at: https://www.ukri.org/funding/information-for-award-holders/post-award-guidance/
REPORTING REQUIREMENTS

All Grant Holders must use researchfish® to record key findings and specific outputs from their grants. Grant Holders can enter information into researchfish® at any time throughout the year and submit during the annual Submission Period.

For International Partnering Awards BBSRC expects the following sections in researchfish® to be completed as a minimum requirement:

- Key findings
- Collaborations and partnerships
- Secondments and placements
- Further funding
- Publications
- Narrative Impact
- Animal Use

For further information and updates please see: https://www.ukri.org/funding/information-for-award-holders/research-outcomes1/

DATA SHARING NOTICE

BBSRC carries out the processing of personal data in accordance with the General Data Protection Regulation (GDPR).

The information you provide will only be used by UKRI BBSRC for the purpose of carrying out reviewing and assessment for making a funding decision.

By providing your information you are consenting to its use as detailed above. Further relevant information is available in the BBSRC Privacy Notice and the BBSRC Data Protection Policy.

Please note that a separate data sharing notice is used for the BBSRC UK-Taiwan Partnering Awards which is included in the Taiwan Annex.

CONTACT

Eligibility queries about this scheme should be addressed to:

Sana Afzal
Assistant International Relations Manager
Email: Sania.Afzal@bbsrc.ukri.org

ANNEX 1: Guidance for JeS application process
ANNEX 2: Application Checklist
ANNEX 1: The JeS application process

Important: applicants should ensure proposals are submitted to their Je-S submitter/approval pool well in advance (a minimum of 5 working days) of the published deadline. This enables institution checks to be carried out before final submission to BBSRC.

This text is designed to provide guidance on the JeS application process and follows the same format as the JeS application form. Please fill in each section as described:

1. Navigate to the JeS Login Site and login using your existing user name and password.
   - All applicants should have JeS login details as these are required to apply for a BBSRC research grant.
   - If you do not have a JeS username and password you will need to register with JeS.

2. In the Account section select Documents, then under the Create section select New Document.

Add New Document

1. Select Council: Select BBSRC using the dropdown menu.
2. Select Document Type: Select Standard Proposal using the dropdown menu.
3. Select Scheme: Select International Partnering Awards from the dropdown menu.
4. Select Call/Type/Mode: Select the current year’s call from the dropdown menu.
5. Select [Create Document], this will take you to the main Document Menu.

Document Menu

Please note that the order of this scheme on JeS is different to the order used on standard BBSRC applications. It was changed to reflect the information required for this scheme. Once you have completed each screen, select save and then next to move to the next section. Applications do not have to be completed in one session. You can return and re-edit any section prior to submission.

Project Details

1. Organisation: Select an organisation using Select Organisation (opens a new search window).
2. Department: Select a department using Select Department (opens a new search window).
3. Your reference: Insert a personal reference to differentiate this application from other proposals you may be submitting through JeS (20 character limit).
4. Project Title: Insert a Project Title (150 character limit). You must start the title with the country that you are proposing your partnership with.
5. Type: This field should have been auto-filled by the name of the call selected above.
6. Start Date and Duration: Use the drop down menus to select a start date. Note this must be within the next financial year. Select duration in months. Note that this must be between 12 and 48 months.
Applicants

1. Select **Principal Applicant**

2. Select **Add New Principal Applicant Item**

3. **Name**: Select the Principal Applicant using **Select** (opens a new search window).

4. **Post will outlast project?**: Check the appropriate box to indicate if the applicants post will outlast the proposed PA. If the applicants post will not outlast the project, details must be given in the ‘Case for Support’ of how this project will continue.

5. If this is a joint application between two or more BBSRC grant holders select **Co-Applicant**.

6. Add Co-Applicants in the same manner as described for Principal Applicants. All Co-Applicants **must** be registered with JeS.

Related Grants

1. Select **Add New Related Grants Item**

2. **Reference Number**: Fill in the reference number of the BBSRC Responsive Mode Grant, Institute Strategic Priority Grant, David Philips Fellowship or other BBSRC grant with which this project is associated.
   - Note that some grants, such as RCUK fellowships and certain specialist infrastructure grants may not be accepted by this field.
   - In this case, leave this box blank and clearly state your grant title, start and end dates and reference number at the start of the ‘Case for Support’.

3. Save your selection and repeat the process for any further BBSRC grants relevant to this project.

Project Partners

1. Select **Add New Project Partners Item**

2. Select an organisation using **Select Organisation** (opens a new search window).
   - If the organisation is not found select [**Add New Organisation**] and fill out required fields.

3. Select a department using **Select Department** (opens a new search window).

4. Select the contact using **Select Contact** (opens a new search window).
   - If the contact is not found select [**Add New Person**] and fill out required fields.

5. Enter the contribution of this partner to the project (each partner **must** have an associated contribution).
   - The contribution can be ‘directly’ in the form of cash, equipment / materials, the secondment of staff or other. Alternatively it can be ‘indirectly’ in the form of use of facilities, staff time or other.
   - Each contribution **must** be given an associated value; however this value can be set at 0 if it is difficult to quantify
6. Save your selection and repeat with the remaining project partners.

Objectives

Use the text box to provide a succinct overview of the proposed PA objectives (1000 character limit). Applicants should list the main objectives of the proposed PA. These objectives will be displayed on the BBSRC website and in BBSRC publicity and should therefore be concise and free from jargon and abbreviations.

Resources

This section is used to detail the costs of the proposed collaboration.
1. Select Travel and Subsistence.
2. Click Add New Travel and Subsistence Item
3. Destination and Purpose:
   • For travel items enter the country, city and institution (if applicable) of destination, the method of transport and the reason for travel e.g. flights to Washington, US x3 to attend meeting at National Institute for Health.
   • For subsistence items enter the country and city (if applicable) where subsistence is required and the length of time subsistence is required.
4. Overseas destination?: Check this box unless this travel item is exclusively within the UK.
5. Total £: Enter the total cost of this activity in £.
6. Save your selection and repeat for the remaining travel and subsistence items.
7. Select Other Directly Incurred Costs.
8. Select Add New Other Directly Incurred Costs Item
9. Description: Enter a description, location and reason for the directly incurred cost e.g. venue hire for workshop in Beijing.
10. Amount: Enter to total cost of this activity in £.
11. Save your selection and repeat for the remaining directly incurred items.

Resource Summary

This is a reference section which can be used to view the total cost of the project. No editing is required.

Attachments

1. Select Add New Attachment
2. Document type: Use the dropdown menu to select the document type.
3. **Filename**: Use [Browse] to select a file.

4. **Description**: Enter a description of the attachment which allows differentiation between documents of the same type.

5. Select save to upload the document and repeat for any additional attachments.

6. Note that applicants **must** include a Case for Support, which **must** contain the following sections:
   - The main scientific objectives.
   - **Summary of previous contacts or links with proposed partners.**
   - **Details of the work to be carried out**
   - **Statement of added value.** Indicate the benefit of the proposed collaboration to UK science and in particular, the relevance to your current BBSRC funding.

A short proposal letter **must** be included in the application.
CVs and publication lists are **not** required; however applicants may wish to include any particularly pertinent recent publications. The Case for Support should be a pdf file of **no longer** than three sides of single spaced 11pt Arial text.

7. In addition to the Case for Support, applicants must attach a Gantt chart or diagrammatic action plan which outlines the activities and timelines for the work to be carried. Maximum 1 side of A4.

8. A Letter of Support (maximum one page) from, for example, the proposed collaborators may also be included, but is **not** mandatory.

**Notes and Comments**
There is no need to provide additional notes and comments with this type of application.

**Submit Document**
Once you have completed all the above sections hover your mouse over the ‘Document Actions’ heading and select [Check Document Validity] to validate the document to determine if there are any critical errors which will prevent the submission of the application to the approver / or submitter pool. If the document passes validation then select [Submit Document] from the top screen.
Once a proposal has been submitted, the application process is complete and the proposal can no longer be edited.

**Contact**
Note that BBSRC staff cannot access on-going applications within the JeS system and will therefore be unable to assist with issues directly relating to JeS.

If you require help with your JeS application, please contact:
The JeS helpdesk
Email: JeSHelp@rcuk.ac.uk
Tel: +44 (0) 1793 44 4164
ANNEX 2: Application Checklist

Please refer to the Country Annexes for essential additional items which have been included in the application checklist.

- The ‘Related Grants’ section in JeS form has been completed with the BBSRC grant with which this proposal is associated. If the grant is not available in this section, complete requested information at the start of the ‘Case for Support’.

- A 3 page Case for Support and Proposal Covering Letter has been uploaded as an attachment in JeS. Letters of Support are optional.

- A Gantt chart or diagrammatic action plan which outlines the activities and timelines for the work to be carried (maximum 1 side of A4) has been uploaded as an attachment in JeS.

- For a full list of information required for collaborative grants with Industry and other users, please refer to the BBSRC grants guide (section 2.9-2.18).
