

2019 BBSRC INTERNATIONAL PARTNERING AWARDS CALL GUIDANCE NOTES

Call Opens: 10th September 2019

Call Closes: 14th November 2019

BBSRC is pleased to invite applications to its annual call for the International Partnering Awards, aimed at fostering links between BBSRC-funded research in the UK and across the globe. The deadline for applications through JeS is **16:00 Thursday 14th November 2019**. Successful awards will be announced in early 2020 and should expect to start after 1st of April 2020.

Applications are invited from current BBSRC research grant holders, who are in receipt of BBSRC research funding. Full eligibility criteria is outlined in the table below.

***NOTE:** This is a general guidance document. Please check the annexes for funding amount, important country-specific information and additional items included on the application checklist.*

BACKGROUND

BBSRC's International Relations Unit (IRU) seeks to enhance BBSRC's influence and involvement at the forefront of international science. This may be through accessing international funding opportunities in the interests of BBSRC's scientific community, or by capitalising on international links, both at policy and scientific levels. IRU achieves this through International Partnering Awards and also a number of other mechanisms.

Partnerships with overseas scientists are producing benefits to the UK and the BBSRC community. It is therefore important that BBSRC continues to try to ensure that strong linkages are developed and sustained in the biosciences.

In 2000, BBSRC launched its first Partnering Awards call with Japan. Since then, BBSRC has expanded the scheme to include Partnering Awards for Australia, Brazil, Canada, China, Europe, India, New Zealand Taiwan, the United States, and Global Partnerships. Since 2010, 251 International Partnering Awards have been funded, investing over £8M.

PURPOSE

The overarching aim of the International Partnering Award scheme is to provide resources to leading BBSRC supported research groups, which allow them to forge long-term relationships with international scientists in areas of research that are of direct relevance to BBSRC's current scientific strategy. The Partnering Awards should provide benefit to BBSRC-funded research by establishing long-term partnerships that will lead to the development of new collaborative research programmes.

The purpose of the Partnering Awards is to provide pump-priming funds for building new links with overseas scientists which will add value to existing BBSRC funded research grants. Specific objectives that underpin the Partnering Awards scheme are:

- To establish partnerships between UK and overseas research laboratories;
- To promote the exchange of scientists, particularly early career scientists;
- To promote access to facilities;
- To tackle BBSRC's strategic challenges as outlined in the [BBSRC Delivery Plan](#); Bioscience for sustainable agriculture and food; Bioscience for renewable resources and clean grown; Bioscience for an integrated understanding of health and Advancing the frontiers of bioscience discovery.

SCOPE

Awards can be used to fund the following collaborative activities in emerging areas of science relevant to BBSRC's strategic priorities:

- Travel for one or more investigators in either direction;
- Visits/access to facilities;
- Scoping studies;
- Workshops and networking;
- Researcher exchanges;
- Other collaborative activities.

Collaborative activities are not limited to the PI and we encourage the involvement of early career researchers. Partnering Award funds can also be used to support student exchanges, however, applications will not be accepted where this is the primary aim of the project.

It is acceptable for the proposed Partnering Award to outlast the associated research grant however **the associated BBSRC grant must have started before the application deadline and must have at least 6 months remaining from the start of the award.**

As Partnering Awards are based on currently-funded BBSRC research, they are not a vehicle for supporting single research projects and Partnering Awards cannot be used to fund:

- Salary costs
- Consumables
- Items of equipment
- Other research costs
- Conference attendance*

*For convenience and cost efficiency BBSRC does allow award holders to arrange collaborative meetings alongside conferences at which their partners are already present. However the award funds cannot be used to pay for the additional conference accommodation and costs such as registration.

Please note that the funding should be seen as a pump-priming award and that research groups will be expected to access other sources of funding. This could include a monetary contribution from the applicant's institution or department or an in-kind contribution such as venue hire or accommodation costs.

ELIGIBILITY

Applications must be made by a Principal Investigator (PI) who is currently in receipt of BBSRC research funding. **In addition, the associated BBSRC grant must have started before the application deadline and must have at least 6 months remaining from the start of the award.**

The table below provides further information about eligibility criteria:

Case for Support

The case for support should be a maximum of 3 sides of A4 written in single spaced Arial, Helvetica or Verdana typeface font size 11 and margins must not be less than 2cm. The Case for Support **must** contain the following sections:

- The main scientific objectives.
- Summary of previous contact or links with proposed partners.
- Details of the work to be carried out.
- Statement of added value: Indicate the benefit of the proposed collaboration to UK science and in particular, the relevance to your current BBSRC funding.

Applications must demonstrate how this award will add value to BBSRC science (and in particular their associated BBSRC-funded research grant) and facilitate longer-term collaborations between the UK and the partnering country.

Work plan

A Gantt chart or diagrammatic action plan which outlines the activities and timelines for the work to be carried out **must** be included in the application (Maximum 1 side of A4).

Cover Letter

A short proposal letter **must** be included in the application.

Additional Documents

CVs and publication lists are not required; however applicants may wish to include any particularly pertinent recent publications. A letter of support (maximum 1 side of A4) from, for example, the proposed collaborators may also be included but is not mandatory.

For a full list of information required for collaborative grants with Industry and other users, please refer to the [BBSRC grants guide](#) (section 2.8-2.17).

Costs

Applications should be made at **current costs** in accordance with subsistence and travel regulations at the applicant's Institution. For each main activity, indicative costs should be shown. BBSRC may index approve costs so awards made will include an allowance for inflation. Any award made will be cash limited, and whilst funds should be used for the activities requested, the use of funds to allow activities that were not originally envisaged will be allowed as long as they are in pursuance of the overall objectives of the Partnering Award and within the guidelines.

No indirectly incurred costs can be applied for under the Partnering Awards scheme; consequently Full Economic Costing (FEC) is **not** applied to these awards. Applicants should therefore apply for 100% of the cost of the activities which they wish to undertake.

Submission of UK Applications

Detailed guidance on how to complete the JeS application process can be found in **Annex 1**. The deadline for submission of applications through the JeS system is **16:00 Thursday 14th November 2019**.

Assessment Criteria

UK applications are assessed internally by BBSRC. Internal assessment of these proposals allows Partnering Award applications to be processed swiftly and in proportion to the size of the awards. An internal review process can be applied as the applications are based on awarded BBSRC grants

which have undergone robust peer review. All proposals will be assessed against the following criteria:

1. Benefits to BBSRC research

- The relevance of the award and benefit that this will bring to BBSRC-funded project(s).
- The benefits brought back to the UK; e.g. through access to new facilities or unique partnerships that would have been otherwise unavailable.
- The uniqueness of the opportunity to work with international partners in ways that would otherwise be unavailable.
- The level of contribution (either financial or in-kind) from the UK institution or the overseas partner in addition to amount sought from BBSRC.

2. Partnership working

- Opportunities for the exchange of scientists, with a balance of activities that are appropriate to the topic area.
- An explanation of why this particular collaboration has been chosen and how it adds value to BBSRC research.
- Opportunities for early career researchers that will benefit their future career.
- A detailed breakdown of the project workflow (i.e. a gantt chart).

Applicants should refer to [BBSRC's Delivery Plan](#) for further information on BBSRC's strategic priorities.

GRANT MAINTENANCE

All grant maintenance requests (e.g. grant extension request, extension to start date, transfer of organisation) should be made via the Grant Maintenance facility in JeS. All requests for extensions must be made once the required duration is known and before the grant ends.
